Culver City, CA 90232

Re: Leaf Blower Operation

Dear Property Owner/Resident:

The City of Culver City adopted regulations in 2017 requiring all leaf blowers operated within the city be limited to a maximum sound level of 65 decibels. The regulations under Municipal Code Section 9.04.015(I) became effective on November 23, 2022.

Recently, the city received a report that a leaf blower was in use at your property which exceeds the allowable decibel limits.

If you operate a leaf blower or have a gardener who uses a leaf blower on your property, please consider this letter a courtesy advisement and discontinue the use of such equipment.

Enclosed is a Notice which we request you share with your gardener so they are made aware and may avoid any potential fines. Gardening and landscaping services are also required to possess a Culver City Business License Tax Certificate.

If you have any questions regarding this information, please contact the Enforcement Services Division at 310-253-5940. Thank you in advance for your cooperation and assistance in this matter.

Sincerely,

Marian Aspnes  
Enforcement Services Manager
