Educational programs, tabling & tours

Engagement with CC High School BCR Club:

+7 year old club

+attend service fairs

+give annual scholarships

+building environmental leaders

February, 2016 event - May 2017 The City of Culver City passed the single use polystyrene ban!

2. What is Banned?

Distribution of polystyrene food service ware and retail of polystyrene coolers are banned products in Culver City. The City also has an Upon Request Policy" meaning "No food provider may provide cutlery to any person taking prepared food away from the food provider's premise unless food provider first ask person whether they want to receive and they respond that they do".

Polystyrene products may be unidentified or be identified by a No. 6 with three chasing arrows that form a triangle.

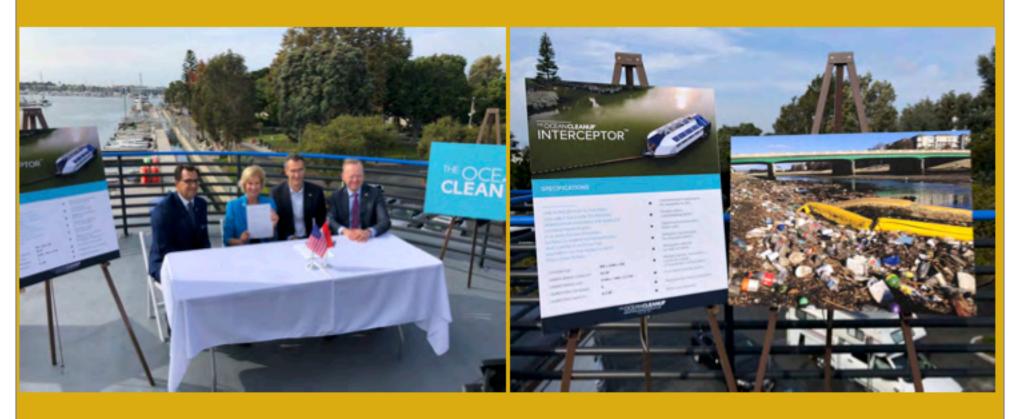

2022: enhanced polystyrene ban in the city of Culver City

solutions to the polystyrene problem
