ORGANIC WASTE SELF-HAULER REQUIREMENTS

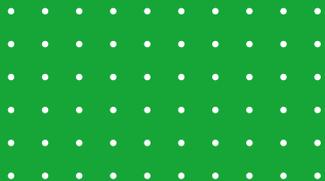

Are you a gardener, landscaper, or contractor who generates organic waste and self-hauls your materials for disposal?

**IF YES, THEN THE FOLLOWING REQUIREMENTS
BEGAN JANUARY 1, 2022**

- ✓ You must separate organic waste from trash and put in the organic bin or take it to a facility that can process organics properly.
- ✓ You are not allowed to landfill organic waste.
- ✓ You must keep records of receipts and weight tickets, name of facility accepting organics, dates, and estimated amount in cubic yards.

A residential organic waste generator that self-hauls organic waste is not required to record or report the information identified.
